

- Solar Energy Technician Training Program-

Training & Opportunity for Employment

Training for Eligible Unemployed Individuals through a grant from the
New Jersey Department of Labor and Workforce Development
Opportunity Partnership Grant Program

Program information:

A Certified NABCEP PV Associates credential helps individuals with establishing a solid career and foundation in the solar industry. Eferon provides a 15-week training program of instructional certified solar training equipping students with the knowledge, fundamentals, and skillset according to NABCEP industry standards. Students are confident in obtaining training in a career field that provides sustainable employment and income-producing opportunities.

- There are no charges or fees for selected candidates
- Training in classroom and lab setting for a total of 350 hours
- Qualified graduates will have the opportunity to interview for full time job placement with participating employers.

**If interested in participation.
Information Session attendance is required.
Punctuality is a must.**
