GOOD NEWS!!

September 13, 2021

Dear Residents,

Hackensack Plank Road is open again! Contractors and Engineers have stabilized the hazards from the rock/mudslide on the cliff. They have also placed wire netting/mesh to prevent other rocks and debris from falling. Concrete barriers have been placed at the roadside to protect cars and pedestrians in the roadway and sidewalk area.

Shippen Street will be closed from Gregory Avenue to Hackensack Plank Road. The roadway suffered some pavement damage from the water pressure in the sewer line due to Hurricane Ida. We anticipate opening Shippen Street by tomorrow afternoon.

Please keep in mind that the work recently performed was to stabilize major hazards from the rock/mudslide. Future work will be performed in the next few weeks, and road closures will occur during those repairs. We will inform residents before any closures occur.

Thank You,

Richard F. Turner
Mayor
